

Epsilon Labs Application Security Assessment Scoping Questionnaire – v 1.0  
November 2012

	Question	Notes
1	<p>What hosting plan do you use for your application?</p> <ul style="list-style-type: none"><li>a) Third party hosting company – shared hosting</li><li>b) Third party hosting company – dedicated server</li><li>c) Third party hosting company – cloud service</li><li>d) In house hosting</li><li>e) Other</li></ul>	
2	<p>In case the application is hosted by a third party company:</p> <ul style="list-style-type: none"><li>a) Is the third party aware about the tests?</li><li>b) Is there formal permission for performing such tests?</li><li>c) Are there any restrictions and requirements set by the third party company regarding security testing activities?</li></ul>	
3	<p>What is the primary purpose of the test?</p> <ul style="list-style-type: none"><li>a) Discover as much vulnerabilities as possible</li><li>b) Penetrate the IT infrastructure as deeper as possible</li><li>c) Other</li></ul>	
4	<p>What type of environment will be tested?</p> <ul style="list-style-type: none"><li>a) Development</li><li>b) UAT</li><li>c) Production</li><li>d) Other</li></ul>	
5	<p>What are the availability considerations?</p> <ul style="list-style-type: none"><li>a) The environment should be up and running 24/7 with short tolerable interruptions</li><li>b) Longer interruptions are</li></ul>	

Epsilon Labs Application Security Assessment Scoping Questionnaire – v 1.0  
November 2012

	acceptable	
6	How many user roles the application defines? (for example anonymous visitor, editor, administrator)	
7	Which of the application roles will be accessible for the pen testers through the credentials provided?	
8	Are there different application interfaces for the different roles? Which of them will be tested?	
9	How many modules the application consists of? Please describe them in a nutshell.	
10	Which of the modules you consider as most critical?	
11	Are there application modules or IT components that you would like specifically to EXCLUDE from the scope? (those will not be assessed)	
12	Does the application or your organization subject of any information security regulatory requirements?
